

Safety Gloves

Oil Resistant Gloves (Model G/K-OR/01)

Seamless 100% KEVLAR® liner to provide very good cut resistance, coated with nitrile or rubber to provide good grip and resistance against oil and grease.

Usage: Glass industry and other high cut risk areas, handling of oily metal sheets & etc.

Available in both light & heavy weight.

Cut Resistant Gloves (Model G/K-CR/02)

100% KEVLAR® knit gloves provide exceptional cut resistance without sacrificing dexterity or comfort. KEVLAR® is also inherently heat and flame resistant and withstands rugged wear. Cut and slash resistance make them ideal for handling metal stampings, glass and other sharp-edged materials. Cut protection five times greater than cotton or leather.

Cut Resistant Gloves (Model G/K-CR/01)

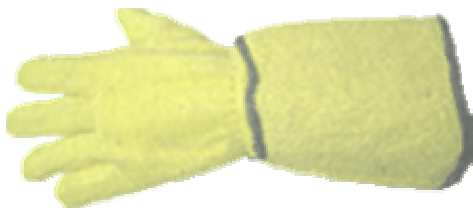

100% seamless knitted KEVLAR® gloves made of different yarn thickness for different levels of cut protection. Knitted wrist to prevent ingress of foreign matters. It offers good efficiency for handling warm objects.

Available in heavy & light weights.

Polka-Dot Gloves (Model G/K-EG/01)

100% KEVLAR® KNITTED GLOVES with PVC dots on the palm of the hand, knitted wrist. Excellent fit, comfort and good grip. An all round product for dry applications.

Terry Fabric Gloves (Model LPL/KTG/01)

Kevlar® is a remarkable fibre that provides strength to protect under extreme conditions. These Kevlar® gloves are substitute for asbestos gloves and most suitable for handling high temperature items. Kevlar® Terry Knitted gloves provide excellent hand protection without sacrificing manual dexterity or comfort and offering exceptional resistance to cut, slash and heat.
