

Nomex Workmen Coverall (Model 325)

These coveralls are light, soft, and comfortable and offer the premium FR protection industrial workers require. Nomex® Workmen Coverall provides comfort, protection and durability that is superior to flame-retardant-treated cotton, which loses its FR property after washing whereas Nomex® is inherently fire-retardant for the life of the garment.

Coverall features:

- ▶▶ Pre-shrunk
 - ▶▶ Front closure
 - ▶▶ Two sewn-in front pockets
 - ▶▶ Hip pockets, two breast pockets
 - ▶▶ One-piece top stitched collar
 - ▶▶ Sized to be worn over clothes
 - ▶▶ Styled like sports wear
 - ▶▶ Full body coverage
 - ▶▶ Easy donning & doffing
 - ▶▶ Flexible waist with elastic band
 - ▶▶ Durable stitching
-
- ▶▶ Colours : Royal Blue, Red, Yellow, Orange
 - ▶▶ Sizes : S to XXL

Exceptional protection

Assured with Nomex® technology

- ▶▶ Does not melt and drip like polyester/cotton blends when exposed to electric arcs or flash fires.
- ▶▶ Acts as a protective barrier between workers and intense heat and flame.
- ▶▶ Reduces burn injuries.
- ▶▶ Provides workers with valuable seconds of escape time, should they be exposed to these hazardous situations.

Extraordinary Comfort

- ▶▶ Nomex® is soft, supple, lightweight and breathable.
- ▶▶ Transports moisture away from the skin.
- ▶▶ Keeps workers cool and dry, so they can focus on the job at hand and comfortably perform to their fullest potential.
- ▶▶ Workers will want to wear it every day, not feel as if they have to.

Easy Care and Durable Protection

- ▶▶ Nomex® coverall are easy to launder– standard home/commercial laundering and dry cleaning techniques provide good results.
- ▶▶ Excellent appearance retention– maintains a fresh-pressed appearance.
- ▶▶ Available in a variety of shirt colors such as khaki, denim, navy and light blue.

Excellent Value

- ▶▶ Lasts longer than other flame-retardant treated cotton, which results in a better economic value.
- ▶▶ Requires low replacement budgets
